**MAKING CHAIRS**  
 Furniture

After weeks hard to work on, the team has finished construction about the 400th chair for the year. "Working to do a chair with the same precision and quality as the first is a great deal of responsibility," said Mike Gault, general manager of the factory.

Each chair is made with a lot of care and attention to detail. "We have a factory and it's all about the quality of the materials. There are some differences, like you get a lot of different types of wood and you get a lot of different types of fabric. It's all about the quality of the materials."
