## CONSTRUCTION AND CUSTOMIZATION

“*Quality construction and customization (the addition of personal style) are two of the top considerations when choosing outdoor furnishings. High-end outdoor furnishings are constructed to withstand the challenges of Mother Nature. High-quality materials — such as cast aluminum with superior powdercoat finishing combined with solution-dyed, non-fading fabrics — allow for extended outdoor life. High-end outdoor furniture is an investment and should provide years of enjoyment. In addition, personal taste and preference should be a consideration with investment furnishings. Thousands of options are available in a wide variety of design styles, finishes, fabrics and embellishments to help you create one-of-a-kind outdoor spaces.*”
