# TREASURE GARDEN

design news | rugs & flooring

**TREASURE GARDEN**  
This new outdoor rug collection by Treasure Garden introduces such colourful designs as the Mosaic Ruby which easily coordinates with the company's umbrellas or other patio furniture. Produced by Belgian artisans exclusive for Treasure Garden, the Mosaic Ruby (pictured) is rich in red, olive and grey elements and is crafted from 100% UV Stable Polypropylene with multi-ply coated heat-set yarns for long-lasting beauty. **ROGER OATES**  
The Roger Oates Design Tapie d'Avignon collection uses a traditional, heavily felted Mouflon wool cloth to create sumptuous rugs that combine bold colour with subtle softness underneath. Each tapestry rug is made from a combination of geometric shapes including rectangles, squares and stripes. The shapes can be cut to any size in a choice of 29 colours to create an infinite variety of highly personal designs. A toning or contrasting decorative stitch is used to join the individual pieces and finish the rug with a blanket stitch. T: +44 (0) 207 351 2288 | www.rogeroates.com

**LOOMAH**  
Focusing on water, the Neptune Collection by Loomah is inspired by the patterns and formations created by this driving force of nature. Rain drops, ripples and waves have been interpreted into a stunning collection of abstract designs in a deep blue colour palette. The use of 100% bamboo adds luxury and echoes the shimmer of the subject matter. T: +44 (0) 207 371 9955 | www.loomah.com
